Match Report

Reds vs Blues

2026-07-05T15:00

match_id: synthetic_match_22f19355
video: 0.2 min @ 25.0 fps, 640x360
calibration: yes (pitch meters)

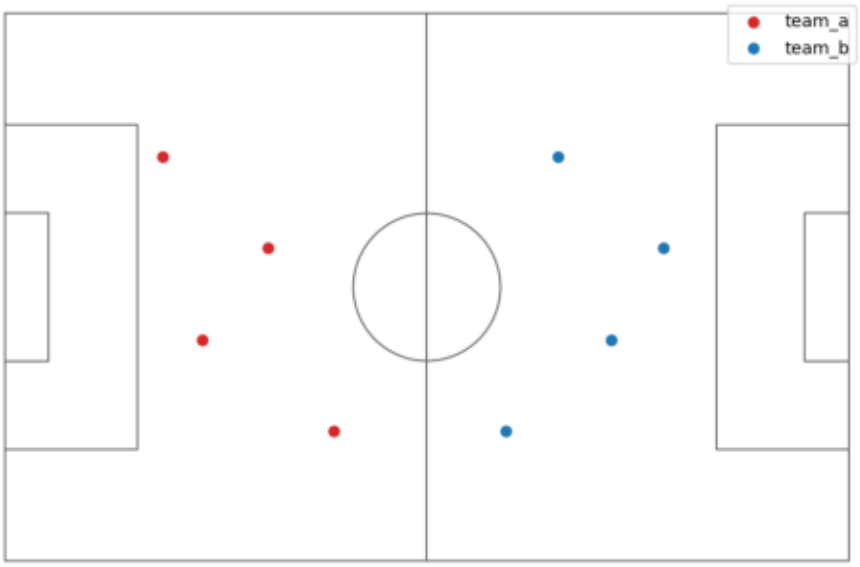

Possession

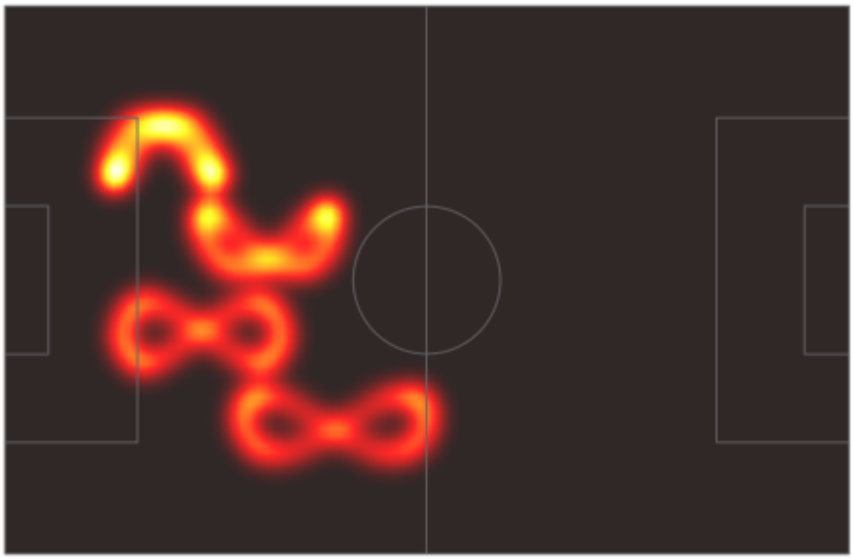

Based on 300 attributed of 300 ball-detected frames (1 possession switches).
Ball detection rate: 100.0% of all frames.
Confidence: HIGH

Positions

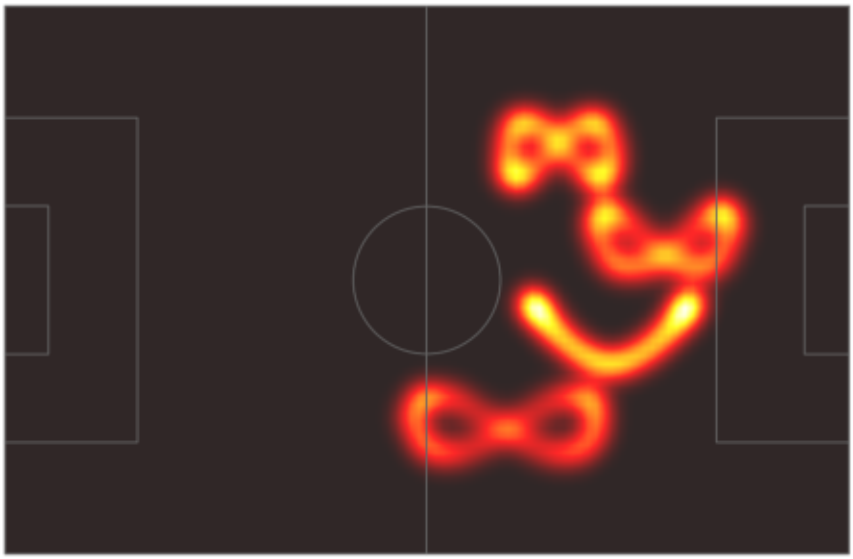

Average track positions

Positional heatmap — team_a

Positional heatmap — team_b

Physical

Team	Total distance	Avg speed	Max speed	Tracks
Reds	197 m	4.1 m/s	7.3 m/s	4
Blues	195 m	4.07 m/s	7.3 m/s	4

Top tracks by distance (best-effort: one player may span several track IDs):

Track	Team	Distance	Tracked time	Max speed
track 9	unknown	63 m	12 s	8.33 m/s
track 4	Reds	58 m	12 s	7.3 m/s
track 8	Blues	58 m	12 s	7.3 m/s
track 3	Reds	52 m	12 s	6.46 m/s
track 7	Blues	50 m	12 s	5.82 m/s
track 6	Blues	46 m	12 s	5.68 m/s
track 2	Reds	46 m	12 s	5.68 m/s
track 5	Blues	42 m	12 s	5.44 m/s
track 1	Reds	41 m	12 s	4.99 m/s

Data-quality appendix

Calibration: applied — stats in pitch meters
Player tracks: 9 total (8 assigned to a team, 1 unknown)
Track fragmentation estimate: 0.4× the ~22 expected on-pitch people
  (well above 1× means IDs fragmented; team totals stand, per-player numbers are best-effort)
Ball detection rate: 100.0%

Every number in this report is reproducible from tracks.parquet + team_map.json
(+ calibration) without re-running tracking. See outputs/stats/ for the tidy CSV
with per-metric confidence flags.
